Wellman NextGen

Make Life Easier
Web + Cloud Based Drilling + Well Life Cycle Software

POWERFUL

Wellman NextGen monitors, controls and captures all daily in-field costs and activities during the full well life cycle.

- Maximize your efficiencies and increase your profits
- Powerful and highly intuitive for users
- Easy to implement and adopt
- Leverages teams and the E&P ecosystem
- Highly adaptable to meet any drilling and completion needs

REPORTING & ANALYTICS

RES Dashboards and analytics to improve communication, decision making and efficiencies.

COMPLETE WELL LIFECYCLE

Site Construction → Drilling → Completion → Facilities → Pipeline → Well Intervention → Abandonment → Reclamation

KEY BENEFITS

Improves Productivity	**24/7 Support**	**Improve Accuracy of Critical Data**	**Optimize Operational Expenditures**
Reporting + Analytics Easy Track NPT	**Most Frequent Software Updates vs all others**	**Data Security (SOX/CA - SOX compliance)**	**Easy to Use:** - Streamlined workflow - Intuitive navigation - Automated reporting

RES Resource Energy Solutions

Wellman NextGen

PERFORMANCE

Wellman NextGen is designed for oil and gas, engineering and national oil companies with rigorous drilling and completion (D&C) requirements, providing collaboration across all business entities in the E&P ecosystem. Wellman NextGen offers superior workflow, change management and tracking with extended reporting and analysis capabilities.

Wellman NextGen allows for simplified and robust integration with industry standard applications such as authorization for expenditure (AFE), financial, global information systems (GIS) and more.

PRACTICAL

Wellman NextGen is specifically designed to meet the growing need for practical and sophisticated software at the lowest total cost of ownership.

Wellman NextGen can accommodate companies of all sizes, providing the most advanced well data management functionality available in the market today.

KEY FEATURES

Supports the full well lifecycle	Built-in workspaces and dashboards	Report all levels of cost, and work history	Built-in messaging and collaboration
Built-in alerts and notifications	User - and role - based permissions	Extensive D&C features	Automated report distribution
Adaptive security model	Highly customizable and extendable	Client Driven Roadmap	Full audit and change tracking
